After your website project is completed, we're still available for additional updates in the future.

75_Y **G-SUITE**
Email, Google Drive, and Office Productivity Suite by Google, branded for your business. We are a Google Cloud Partner.

THREE STAGE DEVELOPMENT:

STAGE 1 **Design**
Professional designer creates a visual mock-up of your website for desktop and mobile.
• Changes to the design will be completed within two business days.[†]

STAGE 2 **Content[†]**
Professional writer creates an outline first, which you approve and then produces up to 1500 words of content for your site.
• Writing edits must be completed before moving into Stage 3.

STAGE 3 **Revisions**
Website is developed according to the mockups with the written content. Stock photos, or your photos will be placed for approval and all website features will be installed for your final review.

Our three stage process normally takes 14 days.
PLEASE NOTE:

- The standard revision period is 3 business days. The extended revision period is 2 weeks.
- Unlimited changes are allowed in the revision period, and will be completed once-daily
- If we do not receive a response from you for a full week (i.e. you go dark) project is closed and full account balance becomes due
